2015 (Montpellier Agglomération)*

# TESTIMONIALS

" Damien and Eric have found the right balance to accompany this film with no dialogues. The music brilliantly evokes the tension and suspense expected and necessary for this film. Greetings to their listening skills and their generous work! "

**Baptiste Rouveure, Anonymous Animals, 2021**

" We found in Damien and Eric creative and hardworking souls in whom we immediately had complete confidence. Always attentive to feedback, they perfectly combined their remarkable artistic sensibility with the constraints posed by the production, and were able to be a force for proposal at the opportune moments (during crucial times). Thank you again for your generous work and this amazing collaboration. We hope that our path will cross again "

**ARTFX, Breach, 2020**

" Listening, responsive, professional, and really talented! As you can see, there is no lack of superlatives to describe Damien and Eric's work. If you wish to bring a professional quality to your video projects, you can contact these two with your eyes closed. Many thanks for your impressive work. Long live Visions Of Dystopia "

**Spirit XperienZ, Youtube channel, 2020**

" Damien has quickly and fully understood the needs of this scientific webseries intended for the mainstream. Throughout 30 episodes, he was able to give coherence to the whole. The episodes are marked by his compositions which succeed in the combination of mystery and spectacular "

**Baptiste Rouveure, Atome Hôtel, 2015**

" It's always a great pleasure to work with Damien Maurel and Visions of Dystopia. From one project to the next, it's always the same investment, the same professionalism and above all the same passion. Listening while bringing personal ideas, the result is always up to expectations, even more so, in equally varied styles and fields. Thank you again for these collaborations! "

**Thierry Ramoin, Dimanche, 2017**
